December 23,1986

Dear Bill;

Please find enclosed a QSL card confirming your reception of CJBK Radio on Nov. 3,1986 and July 15,1986.

We run 10,000 watts day and night on 1290 serving London and points north. The studios are located in the south end of the city, and the transmitter is about four miles south of the city. The format is contemperary hit rock.

We do have a sister station, BX-93 which is a country station on the FM dial. (92.7) The country station is located in the same building.

Thankyou for your interest, I hope I have answered all of your questions.

Sincerely,

Ken Hudson
